

## **“Other” comments from the questionnaire.**

**Q1 What are the three things you like most about living in our parish? Please tick your top three from the list below:**

### **# Other (please specify) Date**

- 1 Doctor and dentist facilities
- 2 community spirit
- 3 Friend and family
- 4 Church
- 5 GOOD ACCESS AND LINKS/TRANSPORT TO TRURO
- 6 More Housing, More Public notices day to day business (Note: This lady ticked every box Questions 1 & 2)
- 7 Public transport
- 8 All are vital
- 9 local history
- 10 Close to the A30
- 11 Small village
- 12 born and bred here, my family are around me
- 13 All are important
- 14 All are important
- 15 All are important
- 16 All of the above
- 17 Peace and quiet
- 18 All are important
- 19 Heritage and continuity
- 20 Railway remains / history
- 21 Birthplace; always lived here
- 22 Near family
- 23 clean air and the ability to grow rare plants and create an outstanding garden
- 24 Mount Pleasant Eco Park Allotment
- 25 planning that encourages community space that is also used a potentially commercial way that gives local people chances to open their own businesses which also with the right thought could benefit all levels of the community.
- 26 Accept other views
- 27 The feeling of being safe as there are low crime levels. Having lived in Redruth and been the victim of crime on several occasions, we moved back to the parish to get away from it.
- 28 Tranquility
- 29 Local Architecture and Mining History
- 30 Having my family living in the same village
- 31 The feeling of safety
- 32 Character of the village!
- 33 All are important
- 34 Public transport
- 35 The beautiful place of outstanding beauty views
- 36 The beacon and its views
- 37 All the above
- 38 Family History
- 39 Born here, all my family are here
- 40 The combination of virtually all of the above, my choice of GB.

**Q2 When development proposals are put forward in our Parish in coming years, what are the three most important things that should be considered? Please tick your top three from the list below.**

**# \*Other (please specify) Date**

- 1 Making sure the infrastructure is adequate to meet the need 10/11/2016 9:46 PM
- 2 Designated and maintained bridleways and footpaths 10/11/2016 8:55 PM
- 3 Small scale developments that don't massively alter the existing communities 10/11/2016 7:40 PM
- 4 New houses not needed 10/10/2016 10:45 PM
- 5 Maintaining look of our village 10/10/2016 10:34 PM
- 6 Protecting FARM LAND growing food 10/10/2016 10:12 PM
- 7 Sustainability 10/10/2016 8:26 PM
- 8 Drainage and utilities upgraded 10/10/2016 8:21 PM
- 9 Schools/doctors 10/10/2016 8:06 PM
- 10 Footpath maintenance 10/10/2016 1:19 PM
- 11 ECO Specifications 10/9/2016 11:50 PM
- 12 Apartments to be able to downsize 10/9/2016 7:37 PM
- 13 Adequate school places and healthcare 10/9/2016 6:58 PM
- 14 No Second Homes 10/9/2016 5:19 PM
- 15 Environmental sustainability 10/8/2016 2:54 PM
- 16 Improving Infrastructure 10/8/2016 2:38 PM
- 17 Housing disabled & Elderly 10/7/2016 8:17 PM
- 18 Keeping communities well-defined 10/7/2016 7:35 PM
- 19 Single occupancy development 10/
- 20 Protecting existing services like medical services 10/7/2016 6:46 PM
- 21 Facilities should also be built as a clause i.e. dentist, doctor, school 10/7/2016 6:26 PM
- 22 MORE HOUSES FOR LOCALS LOW RENT / LESS EXPENSIVE BUY DEVELOPMENTS 10/6/2016 10:57 PM
- 23 MAINTAINING THE ARCHITECTURAL CHARACTER OF VILLAGE NOT INCREASING POPULATION OF VILLAGE 10/6/2016 10:45 PM
- 24 SCHOOL PLACES 10/6/2016 10:32 PM
- 25 Sewage 10/6/2016 9:31 PM
- 26 Over development of St Agnes and spoiling views. Village is being spoilt with too many new houses infilled and planned 10/6/2016 8:37 PM
- 27 Make drivers park correctly 10/6/2016 8:15 PM
- 28 Good decision making 10/6/2016 5:37 PM
- 29 Safe pedestrian access from houses to village facilities 10/5/2016 9:18 PM
- 30 Suitable infrastructures 10/5/2016 9:11 PM
- 31 Keeping it a village 10/5/2016 8:56 PM
- 32 No more DEVELOPMENTS!!!!!!! 10/5/2016 8:35 PM
- 33 Planning 10/5/2016 5:42 PM
- 34 Supporting and maintaining existing local businesses, egg shops, cafes etc. 10/5/2016 2:44 PM
- 35 Is there a specific requirement 10/5/2016 2:41 PM
- 36 All are vital 10/5/2016 2:39 PM
- 37 Public toilets 10/5/2016 2:15 PM
- 38 protecting the small village community and character, not turning St Agnes into a sprawling town 10/5/2016 11:52 AM
- 39 adequate doctors and dentists 10/5/2016 11:48 AM
- 40 sewage impact 10/5/2016 11:34 AM
- 41 No more building on the Beacon 10/4/2016 8:39 PM
- 42 Where they are located and visibility spoiling views of Beacon and from the Beacon 10/4/2016 8:24 PM
- 43 Not building on green fields, that haven't been given permission for change of use 10/4/2016 7:56 PM
- 44 what current visitors and villagers cherish 10/4/2016 3:50 PM
- 45 protecting aesthetic of ancient lanes & farmland 10/4/2016 2:27 PM
- 46 Improve sewage system 10/4/2016 2:09 PM
- 47 where located 10/4/2016 12:16 PM
- 48 Not more houses 10/3/2016 7:35 PM
- 49 Improvements to pathways, walking to schools, nurseries and near new houses 10/3/2016 7:03 PM
- 50 Enough infrastructures i.e. schools for extra children 10/3/2016 5:32 PM
- 51 school places & sewage infrastructure improvements 10/3/2016 10:50 AM
- 52 Village Green or Square 10/3/2016 10:36 AM
- 53 infrastructures, i.e. enough school places and adequate doctors/dentists 10/2/2016 6:04 PM

- 54 All are important
- 55 A supermarket
- 56 We don't need any more houses!
- 57 No more development please
- 58 No more building on green fields
- 59 Housing development in keeping with surrounding area
- 60 Cycle routes and Community transport
- 61 Cycle paths
- 62 schools
- 63 build new village 2 miles from coast or from existing village
- 64 Easing traffic congestion but not by traffic calming i.e. no speed ramps or build-outs
- 65 All of the above
- 66 Provide more support for the doctors/dentist if this arises
- 67 Rented Housing
- 68 Infrastructure, doctors, schools
- 69 Maintaining the countryside
- 70 Limiting second home ownership
- 71 Schools
- 72 Schooling
- 73 Only build on brownfield sites
- 74 More 4 bed for larger families
- 75 The Beacon must be protected from further development/new builds
- 76 considering utilities are sufficient, especially drainage
- 77 Stop Aggie growing huge with busy traffic as a result
- 78 Reopening of the toilets by St Agnes car park
- 79 Keeping it natural
- 80 No more houses, roads can't cope. we are losing our own village
- 81 Whether hospitals can cope with larger population
- 82 Protecting wildlife
- 83 Eco housing energy saving
- 84 Housing developments should not be on top of the hills because of visual impact. Housing should not be cramped without adequate parking off road and no space for children to play or people to sit outside. Housing developments need to incorporate planted areas to soften the buildings and be better for the environment
- 85 Stopping over-development
- 86 Reducing population density
- 87 Placement at local schools
- 88 Central/Local Government to facilitate the infrastructure to cope with extra citizens (i.e. School, Health Services, Police, Road maintenance etc.)
- 89 Retaining the village character
- 90 a sense of scale
- 91 Protecting the character and spirit of the village
- 92 Extra help for schools and medical practices
- 93 Have a reformation of the planning process, and consider that if people are capable of using their own land in such a way it doesn't impact on the local surrounding it should be encouraged in stead of being seen as some sort of stigma.
- 94 sustainable ecologically sound building methods
- 95 Community energy
- 96 Encourage individual and small scale development
- 97 School
- 98 Infrastructure including spaces in local dental practice and surgery
- 99 Public Toilets
- 100 Health and school places
- 101 If the development is appropriate for a post fossil fuel future, i.e., using the elements to provide power, heat and water
- 102 whether local people think the development will blend in
- 103 That any plans consider the effect housing growth has on schools, doctors, amenities etc.
- 104 Mirrors on blind corners
- 105 Housing for local people not holiday lets/second homes
- 106 doctors' facilities
- 107 Schools
- 108 Are they sustainable in a small village with limited facilities and poor infrastructure
- 109 Quality of school and provision of enough spaces
- 110 infrastructure, schools, doctors, sewerage
- 111 Improve traffic congestion, single decker buses only
- 112 Low carbon footprint eco single dwelling homes
- 113 Protecting character of St Agnes Village

- 114 Preserving local community
- 115 To stop building developments in totally inappropriate places ruining our villages
- 116 Design sensitive to local environment
- 117 GENERAL STORES AS IT USED TO BE IN GOONBELL WHEAL BUSTON AREA
- 118 Schools/infrastructure
- 119 Improvements to infrastructure (schools, drs, dentists etc.)
- 120 Making best use of the land infill / brownfield
- 121 Affordable housing according to local wages
- 122 Enough provision of local services such as Schools and Healthcare
- 123 All are important
- 124 Public transport
- 125 That the infrastructure can cope with increased demand
- 126 Improving safety for pedestrians and cyclists so that the car can stay at home
- 127 Schools spaces
- 128 Protect local businesses
- 129 better retail outlets
- 130 Protecting what current villagers and visitors love about the Parish now
- 131 Protecting wildlife and landscape
- 132 don't want more urban sprawl
- 133 Protecting The Beacon from any more development
- 134 All the above
- 135 Housing developments built to a good design and standard. It is our experience that the new developments are built to a very poor standard. The new developments quickly look run down.
- 136 Infrastructure as a whole Inc. bus services, shops, youth facilities, roads, access, and the future not just here and now.
- 137 Adequate infrastructure
- 138 Increasing dentist, doctor and sewage capacity
- 139 not overdeveloped
- 140 Other infrastructure needs like schools/sewage met
- 141 Protecting The Beacon from any more development
- 142 limit the number of 'super' homes being developed £800k+
- 143 Cycle-Village St. Agnes

## **Q8 If you have a child / children in primary school, which school do they attend?**

### **# Other (please specify) Date**

- 1 Grandchildren attend
- 2 Great grandchildren
- 3 Grandchildren
- 4 GOONHAVERN
- 5 Goonhavern
- 6 our grandchild used to attend Mount Hawke Academy. This question is important but ought to include secondary schools as well
- 7 Treleigh C.P. School
- 8 none at the moment but many friends with their kids at the local schools
- 9 Truro Prep School
- 10 GOONHAVERN

## **Q10 If you answered 'no' to Question 9 - why is this? Please tick the three most important reasons:**

- 1 Needing to travel to Truro for work, parking at school is inadequate
- 2 Takes school bus. Sensible and reduces traffic by a lot.
- 3 on way to work, toddler also on journey, rain/poor visibility
- 4 We walk but pavements are often overgrown
- 5 All of the above
- 6 Narrow, winding roads unsafe
- 7 Narrow, winding road unsafe
- 8 Too dangerous
- 9 Hills
- 10 it's not safe
- 11 Breakfast Club as we both work
- 12 Kids at different schools
- 13 Lack of parent parking outside Mount Hawke Academy

**Q11 Do you think there is enough accessible open space where you live? Please tick one for each type of open space.**

**# \* Please specify: Date**

- 1 No play area is provided
- 2 Does not apply, I live at wheal rose
- 3 Does not apply, I live in wheal rose
- 4 No well-maintained bridleway. Chacewater parish do a wonderful job - why can't St Agnes do the same? Hundreds of horses' homes in local area and no facilities, need to ride on dangerous roads. Help now
- 5 Parking
- 6 Running circuit - well-lit around the village for SAFE winter use
- 7 Maintaining trees/shrubs in public areas
- 8 I'd like to add cycle paths
- 9 skate park
- 10 Wheal Rose
- 11 Access to available stone circles and henges
- 12 NEED A SKATE PARK. I HAVE LEFT SOME BLANK BECAUSE I DO NOT NEED/USED THESE FACILITIES AND THEREFORE I AM IN NO POSITION TO JUDGE
- 13 DOG POO BINS
- 14 Used to be, now going rapidly
- 15 Dog friendly beach
- 16 Swimming pool would be great.
- 17 Art/pottery studios
- 18 St Agnes needs a skate boarding area
- 19 Parking
- 20 Indoor sports center
- 21 Areas free from dogs and mess - The above depends where you live, New developments have contributed little in St Agnes.
- 22 No room for anything in this area
- 23 A footpath linking Mt Hawke to St Agnes would be good
- 24 I would like to be able to access our local churchyard in Mithian without a black van Reg: *deleted* parked right across the gateway
- 25 Make safe area for dogs away from cliffs & roads
- 26 school places
- 27 Footpaths not well maintained so access difficult
- 28 Local community area that appeals to ALL ages
- 29 No swimming pool for miles
- 30 Swimming Pool & Gym
- 31 Mount Hawke has no community hall only a very small WI hall
- 32 Easier access for disabled folk to community open spaces
- 33 Blackwater has no playing field for children at all - lots of new houses, footpaths very overgrown
- 34 Safe Cycle Path
- 35 footpaths to cut out areas with no pavement e.g. between Goonown and Taylor Wimpy development
- 36 Beach uncluttered by vehicles
- 37 Beach uncluttered by vehicles
- 38 not enough footpaths of adequate quality & walking access alongside roads, distinct lack of dog poo bins or adequate emptying of those already present - as over full from lack of bins
- 39 Swimming pool
- 40 Too little library opening time
- 41 Too little library opening time
- 42 Indoor athletics facilities needed
- 43 Parking
- 44 access for beaches needs improving for dogs. Dogs die if left in cars but if it is a busy beach then there needs to be a separate area such as Lushington . Many tourists have dogs and because there are very few accessible beaches where dogs are welcome these tourists go elsewhere. There need to be more dog bins to stop doggy bags littering the countryside
- 45 Dog walking field???????
- 46 Swimming pool
- 47 This is a difficult question to answer - do you mean enough as things stand now or enough when there are lots more people living here? It was / is a nice balance of old, small village with village style facilities. There may not be public sports outdoor facilities but we've lived without that for years - get on the coast path.
- 48 Cycle parks
- 49 There are sports facilities in the parish, but they require investment. Any housing development should include investment in community sports facilities.

- 50 Cash machine in top of the village
- 51 A skate park has been needed for years
- 52 We walk our dog in Park Shady but would LOVE a dog poo bin at one end or the other!
- 53 Kids need a skateboard park
- 54 make use of old railway line
- 55 Wider Roads
- 56 Skate park
- 57 Footpath Maintenance
- 58 Access to farm land
- 59 dog mess a problem on footpaths & bridleways
- 60 Countryside unobstructed by power lines and poles.
- 61 Outdoor activity is proven to benefit health, need more education and access to wildlife and green areas during education, not enough access to green areas to much priority given to building land.
- 62 free parking
- 63 Public indoor sports facilities
- 64 development
- 65 Skate Park

**Q12 What concerns you about the potential impact of new residential development in the Parish. Please tick the three most important to you.**

**# Other (please specify) Date**

- 1 Difficult to say as I don't live in St Agnes
- 2 Difficult to say as I don't live in St Agnes
- 3 Put a few houses in local villages not large developments. Allow local families easier planning to build for their families if they have the land/space
- 4 Village infrastructure cannot support large developments
- 5 Lack of access road leading to other than market street
- 6 Increase in crime
- 7 Housing - affordable - in desperate need. All other reasons have to be second
- 8 Noncompliance with Article 16 of Framework Convention for Protection of National Minorities
- 9 All of the above
- 10 All of the above - too much pressure on services
- 11 Urban attitude
- 12 LITTLE RENEWABLE ENERGY SOURCE
- 13 Speeding
- 14 Sewerage
- 15 Drainage feeds into our old narrow pipes
- 16 Built in the wrong location
- 17 Building in areas at risk of flooding
- 18 Sewage overload. Witnessed over and again in Porthtowan
- 19 Poor Build
- 20 All of the above
- 21 All of the above
- 22 If random parking isn't tackled bus companies will refuse to come into the village
- 23 Insufficient infrastructure / amenities
- 24 Road parking would stop traffic congestion
- 25 Lack of environmental/energy considerations in new housing
- 26 Poor design
- 27 Making sure they are NOT impacting on other residents are causing them problems
- 28 Bad developments will have a negative impact on tourism
- 29 Infrastructure not sufficient
- 30 people not using the local shops
- 31 services water
- 32 sewage capacity
- 33 Too many houses in a space, no room for trees to soften the look
- 34 Over use of stone facing to new houses, out of character to existing buildings
- 35 Overdevelopment in a small area impacting on the environment
- 36 sewage at the beach
- 37 Unaffordable second homes
- 38 Village not able to take any more people - as infrastructure can't cope - so stop doing it!
- 39 Second homes
- 40 all are important
- 41 All of the above
- 42 Lack of infrastructure improvements
- 43 We should make room for others
- 44 loss of green space
- 45 Council not spending 106 monies wisely
- 46 Blackwater school cars on the road very dangerous no doctor's surgery in Blackwater at all, we all have to travel
- 47 All of the above
- 48 All of the above
- 49 Strain on public services
- 50 all are important
- 51 Too many holiday homes
- 52 All of the above
- 53 All of the above!
- 54 General lack of amenities in Mount Hawke
- 55 poor bus services to rural areas so that to get to work before 8 am travel has to be by car. there need to be more 2 bed houses suitable for elderly to live in the community. Too little space around individual housing can cause conflict.

Proper consideration needs to be given to drainage particularly where new developments are being connected to old systems as in St. Agnes.

56 Loss of community, not feeling like my home anymore

57 Lack of Starter / Retirement houses

58 improved drainage (sewers) not into the sea

59 its the honeypot analogy ... at what point does a desirable place get ruined by over development? There's a chance that people will stop wanting to live here if its scale and character is changed beyond recognition. I feel its being developed for the wrong motivations

60 The way it will be processed and planned in an inefficient way to due the particular contractors and the way certain members of the parish council/ planning community wont either have the time/ power to be able to create and happy medium, as we all know not everyone will be happy.

61 Impact on climate. New buildings must be zero carbon. Despite recent changes to planning rules this can be achieved through the Neighbourhood Plan.

62 Sustainable/ environmentally friendly

63 Houses built on mass are of poor quality, and do not help local people - (I own a low cost home)

64 insufficient infrastructure (e.g. sewage problems, water shortage)

65 Poor location top of Chapel Hill Porthtowan

66 Loss of agricultural land

67 insufficient planning for sewerage and water supply

68 Sewage infrastructure and traffic footfall along very narrow private road to beach past my house - proposed holiday expansion by Tregoyne in Porthtowan

69 Not aimed at locals

70 I have ticked 'lack of places at your school' box but I do not mean that is why a development shouldn't go ahead. I mean the schools need to expand to accommodate the need. I personally think there are some terrible developments which have ticked Cornwall's Planning Guidance Policies but they have created nothing other than a trifle of architectural styles and monopoly board street layouts like Taylor Wimpy's Housing Development. Mock farmhouse facades combined with mock Greek Portico's doesn't seem right to me. Either design a mock styled development well, or don't bother. This style of development only creates another modern ghetto which people are forced to buy because of lack of choice within the Parish. The Planning Application PA14/10618 (which has been approved but not built) for 10 houses between west Polberro and Trevaunance Rd has a 50% mix of affordable to open market housing and looks to have been carefully developed by using a combination of good landscaping and architectural design to respect the local setting. Another development nearing completion is the housing development which looks promising is where Dobles was, West Polberro. If a development should go ahead the people of St Agnes Parish should be proud of it along with its residents. New developments don't have to look old or the same as others in every Cornish town. Good quality, design needs to be encouraged which has been designed for St Agnes Parish's context.

71 Three is not enough, I would tick all of them

72 All of the above concern me

73 Property speculators

74 No concern

75 There are no jobs locally for these new residents, everyone becomes a commuter, it is not sustainable

76 2nd homes turning areas into ghettos of uninhabited houses

77 It doesn't concern me

78 PLANNING RULES BROKEN

79 Large developments destroy character of area, smaller ones can blend in

80 Too many houses for non-local people/pricing out locals/lack of Cornishness in village

81 Impossible to only choose three, they are all important

82 Impact on drainage

83 Infrastructure not suitable in our village - St Agnes

84 Should all be for local people

85 Too many second homes

86 VILLAGE GETTING TOO BIG

87 Shared equity outdated; should be discounted purchase

88 Too many second homes

89 Mt Hawke dr's surgery only open 4 mornings a week. It's inadequate now

90 All of the above

91 Whole supporting infrastructure

92 overuse of existing water and sewage services

93 Safety and general access i.e. New houses near us are ideal for young families but they would have to have their own transport to live in them. Young families who have lived there have told me they moved away because it felt so isolating and they had to use the car for everything, shops, doctors, school, beach, park, because of the lack of pavement

there were absolutely no services they could just walk to.

94 Impact on wildlife

95 I am concerned that with the development in this parish and also in Truro that there will be insufficient secondary school places in a few years' time. I have no idea whether anyone in the Parish Council or County Council have even considered this.

- 96 All of the above should worry everybody
- 97 sewerage system capacity
- 98 Properties being used as second homes
- 99 All apply equally
- 100 I chose "as is " be sympathetic to its values (village ambience)

**Q13 What improvements would you like new development to bring to your community? Please tick the three most important to you.**

**# \*Other (Please specify) Date**

- 1 More community police officers or traffic wardens to stop idiots parking willy nilly
- 2 Better roads with cycle and footpaths
- 3 Small scale developments which include sustainable energy portion, not massive developments done for profit only
- 4 No new developments
- 5 There are no improvements new development could bring
- 6 Too many new houses in the village
- 7 Better Sewerage system that doesn't spill over into sea
- 8 to include within the development a funded open space to include with provision for children and the elderly
- 9 Keep St Agnes as St Agnes
- 10 Control of 20mph speed limit enforced
- 11 Public Toilets
- 12 Public Toilets
- 13 Improved sewerage system
- 14 Environmental sustainability
- 15 RESPECT AND HOMAGE TO VENICULAR ARCHITECTURE, ESPECIALLY LOCAL VERNACULAR (I AM WARY OF POTENTIALLY 'TWEET' RESULTS FROM FEATURES THAT EMBRACE VILLANG CHARACTER
- 16 Control of children littering Lych-gate Bus shelter
- 17 Gradually improve all of the above
- 18 Prefer no more housing
- 19 Good design
- 20 Schooling facilities
- 21 Caravan parks to have areas for full time living for low cost accommodation for local people. Improve dog walking provision
- 22 Ensure off road parking for new homes.
- 23 These are not improvements
- 24 Banking
- 25 Accessible outdoor play areas for all ages, free and with parking
- 26 Traffic calming on Wheal Kitty
- 27 Public toilets
- 28 Better shop for Blackwater / Cafe
- 29 we don't want any development
- 30 Pavements and cycle ways
- 31 A speed limit of 40 miles per hour on Mithian road from B277
- 32 Enforce parking restrictions at all times of year
- 33 main street pedestrian crossings
- 34 Protect local small shops & our free community parking
- 35 dedicated cycle paths
- 36 Safe areas for children to play, parks and play equipment
- 37 Transport links
- 38 Restaurant/ bistro, quality shops
- 39 sewage system improvements
- 40 Design in keeping with surroundings
- 41 Improved drainage & sewage treatment
- 42 cheaper parking
- 43 protection of green spaces
- 44 No more 'improvements' needed. Just stop clogging up the village
- 45 New developments do NOT bring improvement! Only more problems!
- 46 New developments do NOT bring improvement! Only more problems!
- 47 Parking for school
- 48 Community green space with sports facilities such as skate parks.
- 49 Limit roadside parking in Vicarage road and Churchtown to ease congestion, particularly in the summer months
- 50 All of the above
- 51 Better TV and radio signal
- 52 pavements around village
- 53 keep clean and free of weeds
- 54 development money for school, Mt Hawke academy
- 55 Less building
- 56 20 MPH limits in Mount Hawke
- 57 pedestrian safety

- 58 Improved public transport
- 59 Improve local school
- 60 alternative transport options
- 61 No more housing!
- 62 Stop all development other than infill that is in keeping
- 63 fitting in with existing housing better & tariffs for second homes or like St Ives banning new houses being bought up  
by second home owners or buy-to-let
- 64 Don't need any more development
- 65 Do not use businesses to residential status
- 66 Not worried about the above
- 67 No more building on or near the coastal path
- 68 Proper enforcement of speed limits through village outskirts
- 69 Pavements
- 70 Better and more sympathetic landscaping in the valley bottom in Porthtowan. Nature needs to be worked with not against. Repeated fences put across the prevailing wind is bad physics and when they are overtopped the sand will blow even further inland. See DEFRA/EA dune management for the UK 1999-2007. Suggest planting sides of the valley with wind and salt tolerant shrubs to dissipate the wind and nourishing the dune front with sand blown onto the road. This sand would not be polluted by cars. The dunes could then be planted with plants suitable for linear dunes. The whole area is scruffy and could be made attractive, welcoming to visitors and yet remain natural
- 71 Public open space for different uses (social, teenagers, community gardens, wildlife); community renewable energy
- 72 Facilities for children/teens and schooling
- 73 ecological/environmental considerations
- 74 Stop parking on Vicarage road
- 75 Reduced population
- 76 I would prefer no more development at all!
- 77 Swimming pool
- 78 bank facilities
- 79 I don't want any development
- 80 Investment in transport infrastructure to encourage and actively promote the use of public transport, walking and cycling both within the parish and between the parish, neighbouring parishes and Truro
- 81 More affordable housing for local young people
- 82 A village that everyone can get an opportunity to build and put back into where they grew up.
- 83 Community energy and improved walking/biking connectivity around the village.
- 84 mains gas
- 85 Cooperative way of making the area more carbon neutral through shared investment in renewable energy
- 86 Increase local employment opportunity
- 87 improved access to schools
- 88 improved sewage
- 89 Stop people parking outside the butchers as congests everything, when there is a car park just around the corner.
- 90 regular bus service
- 91 Good roads spoilt
- 92 None because there are too many and we are losing the community of the village
- 93 A village shop that sells fresh produce instead of the horror of Porthtowan village shop and the retention of the school bus from Porthtowan to mount Hawke
- 94 Improved community services/community groups and meeting places
- 95 Improved school
- 96 Startup business support, workshops/ work live units.
- 97 Better schools
- 98 More business premises for local employers
- 99 new Adequate Drainage System
- 100 I think there has been enough housing development recently
- 101 Features for local youth and children
- 102 More dog walking areas
- 103 development money for schools
- 104 Villages need to grow to survive
- 105 No large developments (more than one dwelling)
- 106 Smaller affordable houses under £80,000 for 1st time buyers
- 107 Fitness Facilities such as Gym or Pool or SOA?
- 108 Reduction of speed to 20 mph in village and 30 mph on approach
- 109 Purpose built village hall
- 110 More restricted parking on road
- 111 Improved footpaths
- 112 INTRODUCE PARK AND RIDE
- 113 Village Speed cameras
- 114 HOUSES ONLY FOR LOCAL PEOPLE HAVE TOP PRIORITY

- 115 new school
- 116 facilities for small, local businesses potentially shared
- 117 Proper village pub not Bistro!
- 118 Better built houses, building future slums at present
- 119 Reuse of derelict/unusable land
- 120 Social housing needed
- 121 Better accessibility and pavements to avoid having to drive into village center
- 122 Limited new development
- 123 All of the above
- 124 park & ride just outside the village so that fewer cars drive into village. Borrow a bike scheme and more bike parking areas
  
- 125 Stop locals parking on double yellow lines
- 126 Only to be developed on the outskirts away from the outstanding beauty coastline
- 127 Improve and protect unobstructed countryside views.
- 128 All the above
- 129 Big green spaces that wildlife and people can appreciate
- 130 Confidence of young people they can live in the parish
- 131 We have too many new developments NOW!!!!
- 132 Improved public open space in the village is my third, not village character I had to tick 3

**Q23 Are bridleways, footpaths and cycle paths adequate within your area?**  
**Q24 If you answered 'no' why do you think they are inadequate?**

**# Other (please specify) Date**

- 1 Increased traffic could impinge on access to footpaths
- 2 Overgrown/neglected - we riders can't keep doing them. We need help this would enhance parish facilities. See Chacewater parish example!
- 3 B3277 is main commuting road but no footpath or cycle route from park kres
- 4 All could do with more regular maintenance
- 5 There aren't any
- 6 Woeful lack of safe cycle paths
- 7 Difficult to identify safe routes despite signage
- 8 They don't link up
- 9 Lack of signage
- 10 Poor road surface Teagle straights despite resurfacing
- 11 Dog fouling on footpaths
- 12 Unevenness and camber
- 13 Often unsafe. There are no cycle paths provided in St Agnes
- 14 Too much emphasis on car!
- 15 Cycle paths
- 16 NO FOOTPATHS LINKING MOUNT HAWKE TO SKINNERS BOTTOM ETC
- 17 Cycle path is on road and dangerous
- 18 Jericho valley
- 19 Need more cutting back brambles and nettles
- 20 cycle paths and foot paths
- 21 Haven't seen any
- 22 Don't know of any
- 23 Too many cyclists on cliff paths
- 24 More cycleways to safely get to Truro? More 30 mph lanes
- 25 Dog fouling -need for bins 26 Not always footpaths let alone cycle paths!
- 27 Porthtowan footpath from coast road to beach
- 28 Need batter links between Mount Hawke and Porthtowan avoiding roads
- 29 No provision out of village - NO street lighting
- 30 There is no footpath outside of my house
- 31 No cycle paths
- 32 there aren't any but I don't think there are many places that would be appropriate anyway
- 33 Poor access to St Agnes from where we live (route has no pavement) need cycle path to Mithian school.
- 34 Dog poo everywhere cycling is impossible
- 35 and not very safe -poorly marked
- 36 Need suitable footpath into Porthtowan
- 37 some are poorly maintained
- 38 especially to cycle to Truro
- 39 there are no cycle paths
- 40 dangerous to walk around parish, more frequent buses would help
- 41 Paths and pavements are not very wide in places especially to Tigger's nursery after over grown and have to walk on the road
- 42 There are gaps, so there are lots of each really but then there are breaks onto busy roads
- 43 Direct paths to areas of interest around Beacon, parks, coast etc.
- 44 Taylor Wimpey estate not linked to Goonown & Goonbell, Quay Rd difficult in summer, cycle path needed from St Agnes to Chiverton Cross
- 45 footpath/cycle path from St Agnes to Chiverton Cross needed
- 46 Not enough street lights in areas where there are no pavements
- 47 lack of footpath Goonown to Penwinnick Road
- 48 There are no cycle paths! Some footpaths grown over and would be good if they could link with Mithian
- 49 Constantly being 'pinched' by people who live near them
- 50 Dog fouling
- 51 lack of walkway from Parc Shady to Porthtowan
- 52 Blackwater
- 53 Don't think there are any!
- 54 There are no proper cycle paths between my village and the major towns
- 55 Bridleways do not need to share with cycle paths
- 56 often ignored by landowners
- 57 Some have been closed by landowners, or allowed to cover over

- 58 All flooded, overgrown, trees fallen over no sign posted
- 59 not really required (don't spoil what we have!)
- 60 No space for them!
- 61 too many
- 62 Don't use them, don't lead to where I want to go
- 63 Very muddy as used by horses and some on the map do not exist
- 64 They are treated in isolation rather than as a network. Some have been allowed to grow in and become lost.
- 65 Cycling around St Agnes is incredibly dangerous
- 66 Would like improved provision for invalid cars
- 67 Narrow for passing others especially those who are unsteady on their feet
- 68 Do not use
- 69 Cyclists need safe routes to cycle to work in Redruth or Truro, the main roads out of Porthtowan are narrow, and the edges poorly maintained causing accidents.
- 70 Dog excrement on pavements
- 71 Also on some older estates no street lights make walking after dark difficult. Not everyone has a car!
- 72 There aren't any cycle paths
- 73 No Cycle Paths
- 74 Cycling is dangerous
- 75 but it sort of is what it is - the lack of cycle paths used to be OK but now the traffic has doubled (?) or certainly increased its making sharing the road more difficult
- 76 Practically no cycle provision
- 77 Cycle paths, where they exist (there are few) rarely provide a safe, reasonably direct route between villages and towns. As such using a bicycle instead of a car comes with an element of risk. The parish should actively campaign for cycle routes between villages and the north coast and Truro that are safe and well maintained.
- 78 Not enough cycle paths to keep cyclists safe
- 79 there is no safe cycle route to the hospital or local towns
- 80 Cycle paths - Where are they?
- 81 I can't think of a cycle path around
- 82 There are No cycle paths in St. Agnes
- 83 lack of pavements
- 84 No room for cyclists
- 85 pavements are intermittent and not consistently wide enough to allow wheelchair users to access the village shops
- 86 If you want to cycle to Truro you have to go along Teagle Straight
- 87 Cycle paths - non existing
- 88 No footpath or pavement down chapel hill to the village
- 89 Too much dog poo and not enough cycleways
- 90 No specific cycle routes as far as I am aware
- 91 We need footpaths and cycle routes along all major roads, particularly Teagle straight and speed restrictions enforced throughout the village
- 92 Footpaths / pavements on school route are inadequate. Cycling along the main access road is dangerous so no safe cycle route to school.
  
- 93 Cyclist slow down traffic too much
- 94 Connections between villages on cycle paths
- 95 No cycle paths currently
- 96 need cycle/bridle way from St Agnes to Perranporth improve signing lane to Chiverton X
- 97 need cycle/bridle way from St Agnes to Perranporth improve signing lane to Chiverton X
- 98 Cycling is dangerous
- 99 Badly signed, some pathways used years ago no longer exist
- 100 overgrown
- 101 Paths are mud tracks in winter
- 102 There have been fatalities due to lack of cycle paths
- 103 Footpaths used for car parking
- 104 Poor surfaces
- 105 Overgrown
- 106 Insufficient signage. Horse manure. Potholes. Dog Pooh Bags. Old Planks. Rubbish.
- 107 Need far more cycle paths
- 108 Safe footpaths needed from new housing to school/village
- 109 NO CYCLE PATHS
- 110 Some need to be opened up
- 111 Pathways needed on main roads
- 112 FOOTPATHS ARE OVERGROWN
- 113 Too narrow, have to cross roads as paths finish
- 114 Where footpaths exist, they don't keep pedestrians safe from the volume of traffic now coming through the village
- 115 Porthtowan is separated out and there are not sufficient paved areas to walk safely around the village such as up to

wards the Eco park or Atlantic Way

116 Lanes are too narrow & they should be made wider as it means cutting down hedges

117 Need a safe cycle path to Truro. Relieves traffic congestion and it's more healthy

118 Don't yet use

119 Not a safe path to continue from Blackwater to bus stop at Chiverton, since bus service reduced

120 Where I live there is no cycleway or paved footpath in to the village

121 Not clear which are acceptable mountain bike routes.

122 We need a cycle path to Truro!

123 Concern of cyclists on Teagle straight - need a cycle path alternative running alongside the road

124 Don't use them 8/31/2016 12:26 PM

125 The A390 is becoming like a pavement.

126 cycle ways should be segregated from other traffic where possible

127 Very limited short walks around village

**Q37 Everyone please answer from here. What sort of business units do you think are needed in the Parish? Please tick the three most important to you.**

Only farming in this area

Anything that will help the youngsters leaving school to be given a chance to carry on learning a trade

No need for more in Blackwater

Space in keeping with the area

Food franchises in small units like subway and cafe for English breakfast

Taxi in Porthtowan

Not needed plenty in outlying areas

affordable artists' studios

We are adequately catered for.

location location location

No business units in Parish we have adequate for area

Quiet units, none-noise creating businesses (Pardon?)

spaces freelancers can rent to create a collaborative community

decent post office & a bank also fuel station for petrol & diesel

businesses not shops

More local produce places

bank, post office

business employing large number

But perhaps a bigger P.O.

None as too many business park are not full

Open access training workshops/facilities

St Agnes has for us a special charm - don't make it into another Perranporth

None. Empty shops available

Hybrid office/workshop/store

none - it's a village not a town

People can live here & travel to work outside the parish (buses)

leisure facilities for families

None of the above

None. We've enough now and don't want to lose them. It would destroy the village even more

retail units, not gift shops or cafes

Small scale multi-unit facilities, similar to Kinsley Village, but smaller scale. We did have 'Presingoll Barns', which was a large draw to tourists and coach parties, who then entered the village and spend money in the shops. A facility for a coach park around the village would be an advantage.

reduce business rates to encourage growth

Hardware shop that was in the parish about 10 years ago

These should be built on land to extend existing facilities if possible. I would be saddened to see modern built stable blocks be converted into business parks within the St Agnes Parish countryside! Old historic farm/mining buildings would be better suited for conversion.

Restorative Health & Well Being units

More variable planning uses premises

Need a deli/fresh produce shop in Porthtowan

small village shops

DIY Shop

OUT OF VILLAGE SHOPS FOR LOCAL PEOPLE WHO HAVE NO TRANSPORT

Why do we need more businesses here when most of the houses are second homes!

Unsure - business units could ruin the character of the village

Local businesses that benefit the village community

High quality reliable serviced business center with offices

A3 and A4

None

Don't know. Is this actually needed?

Small amenity shops or multipurpose site for use of " mobile" -daily or weekly, periodic, scheduled, visits, - hair , chiropodist, banks & / or similar amenity concerns,
